

**Medical Information Technologies  
OEM Support Policy**

July 2013

The OEM hardware supplied by Olympus includes a 3-year manufacturer’s warranty. The warranty period starts upon shipping the customer’s order. Olympus will support EndoWorks software on a specific hardware platform for the life of the original 3-year manufacturer’s warranty. After the 3-year manufacturer’s warranty expires, Olympus may determine, at its sole discretion, to no longer support the EndoWorks application on that platform.

Olympus would like to advise you that the OEM computers and software referenced in the table below, and sold by Olympus, are discontinued and no longer support the EndoWorks application. This was necessitated due to the potential unavailability of OEM replacement parts and software drivers required to maintain the systems. Olympus will continue to support current EndoWorks software applications with currently available OEM platforms.

<b>Manufacturer</b>	<b>Model</b>	<b>Type</b>	<b>Processor</b>	<b>Sold From</b>
Olympus	EVIS	Workstation	286-386	prior to 1996
HP	Vectra	Workstation	Pentium I	1996 – 1997
IBM	300GL	Workstation	Pentium I	1997 – 1999
